

# Tyrannosaurus Rex

1

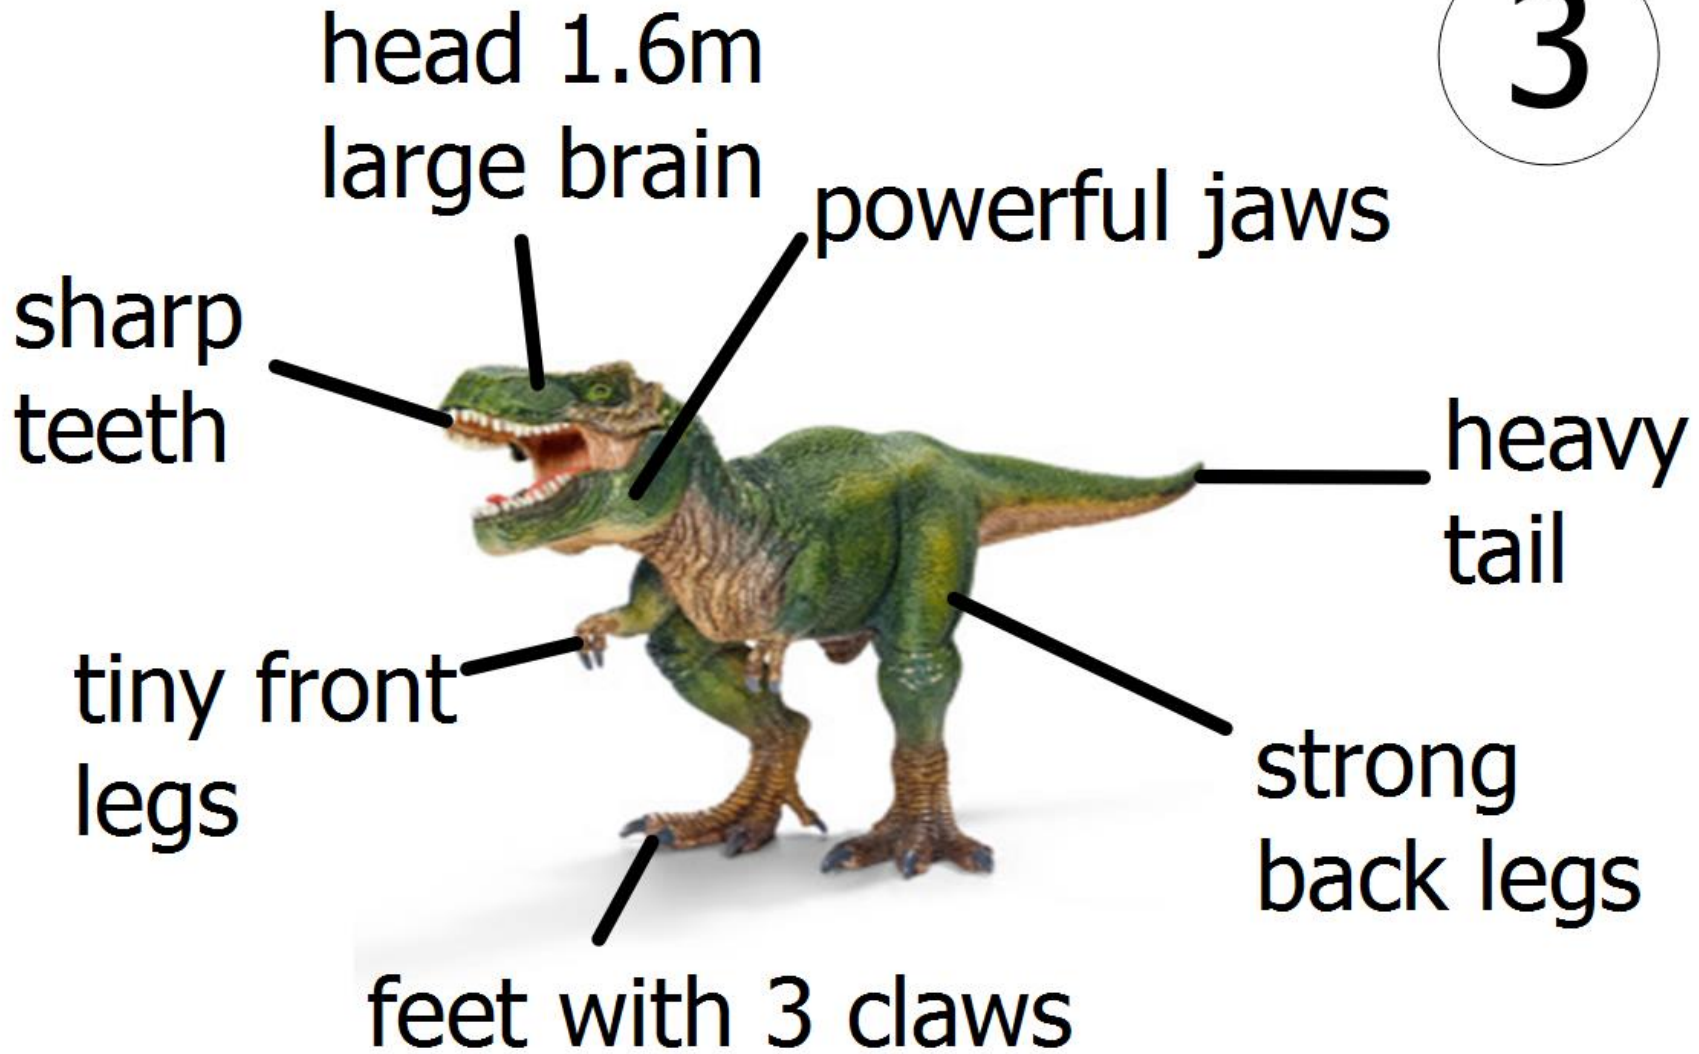

Tyrannosaurus Rex

2

was one of the biggest  
meat eating dinosaurs  
(carnivores) to ever live.

3

Tyrannosaurus Rex

4

lived in the forests of

North America where it's

prey (most other

dinosaurs) looked for food.

5

T- Rex was a ferocious predator that would never give up. It has been made famous in many films like Jurassic Park.

A T-Rex could open  
its mouth wide enough  
to swallow a ten year old  
child!
