

Here is a Rekenrek made from 100 beads.

If the Rekenrek represents one whole, what fractions have been made on the left and on the right?

Can you partition both of the fractions into tenths and hundredths?

Complete the statements.

3 tenths and 2 hundredths = 2 tenths and hundredths

14 hundredths and 3 tenths = 4 tenths and hundredths

5 tenths and 1 hundredth < 5 tenths and hundredths

5 tenths and 1 hundredth > tenths and 5 hundredths

Can you list all the possibilities?
