

Maths Day 5

Today, we are going to look at **using formula and creating Spreadsheets** – something you have all done in Year 5.

This may require you to have Microsoft Excel on your computers. If you don't, do not worry: you can replace this activity with either doing some more percentage practise on Mathletics or completing any outstanding Literacy or shop topic work you may be slightly behind on.

Follow the Power Point below remind you what spreadsheet does and how to complete certain tasks.

[Spreadsheets introduction](#)

Now do this worksheet

[Setting up a Spreadsheet worksheet](#)

Well done if you were able to complete all that.

As part of the topic work later today you will use these skills to complete a Spreadsheet to monitor the costs and profits for your Virtual Lockdown Shop.
