

Write Instructions

Instructions are written to tell someone how to do something. Can you think of when we use instructions and what we use them for? Eg a recipe or board game.

Imagine that you are planning a party. Perhaps it is to celebrate a birthday?

Write some instructions to explain how to play one of your party games. It might be 'Musical Statues' or 'Pass the Parcel', or you could choose one of your own.

Remember you need to order the instructions: 1...2...3...and you need to use 'bossy words' to tell a friend what to do.

For example: 1. **Sit** down in a circle.
